Logically or not, in any recent phenomenon in our lives is associated with the entry of Bulgaria into the European Union.

We travel without a visa, go abroad identity card and driving license, have access to various European programs. And when it comes to development in our minds recently come the idea of □□ education - lifelong learning, education not only in Bulgaria and abroad. But how a man could be oriented in a vast sea of information and how to choose their school and specialty?

The answers to all these questions young people have found during the first since euro membership exhibition for education abroad. For the second year the fair was held in Sofia at hotel "Radisson" 27 and 28 January 2007.

The spacious hall of the hotel was tight to all foreign educational institutions that wanted to personally present to the Bulgarian youth programs for training and development opportunities.

The list of participants is long – a lot of prestigious universities and colleges, elite boarding schools and international language centers. The entrance to the fair was free and everyone was more than welcome to take the necessary information and to make personal meeting with representatives from different institutions. Every visitor also received special discount during the fair.

The fair in Sofia was held in two days and had collected institutions from all over the world. After Sofia, the organizers from Darbi and it's partner's institutions also visited Pleven (5th of February), Russe (6

th

of February), Varna (7

th

of February), Stara Zagora (12th of February), Plovdiv (13

th

of February) so this way more young people from Bulgaria could've receive information for the possibilities for education abroad.
